FlightWorks Announces New FlightPASS[®] and FlightPASS^{XP}[®] Jet Card Programs

Kennesaw, Georgia – October 21, 2011 – FlightWorks, Inc., the Southeast’s largest on-demand private air charter and aircraft management company, has announced the launch of two new jet card options within its successful line of FlightPASS offerings.

The new offerings expand the company’s successful FlightPASS card program by introducing incentives that private fliers want in today’s market. FlightPASS is designed for fliers that fly more frequently, want maximum up-front discounts and are willing to commit to an up-front deposit. FlightPASS^{XP} is a completely new concept, with no upfront deposit, discounted hourly rates and a “cash back” feature, not unlike the Discover Card. Both programs offer on-demand availability and have no restrictions on how many hours can be flown.

Key benefits of both programs include:

- 100% refundable balances at any time during the term
- No long-term commitment or asset purchase
- No monthly management fees
- No blackout dates or peak period restrictions

“FlightPASS introduces a simplified approach to jet card programs, with progressive features that allow our charter clients to realize maximum value with a deposit as low as \$25,000, the lowest upfront commitment in the industry” said Daniel Lucey, President of FlightWorks. Lucey also added “FlightPASS^{XP} introduces a new level of flexibility to private fliers, with no upfront commitment and a cash-back feature that credits the client’s account with monies that can be used on future flights”.

For more details or to purchase a FlightPASS or FlightPASS^{XP} jet card, call 800-255-1971 to speak with a FlightWorks Client Service Representative or Sales Director.

About FlightWorks: FlightWorks operates private executive facilities and business jets in major markets across the United States where it offers on-demand private air charter, aircraft management, government services and aviation consulting under Federal Aviation Regulation parts 91, 125 and 135. The company has private executive terminals in Atlanta and Washington, D.C., as well as additional charter operations throughout the Southeast,

Mid-Atlantic, Central and Western United States, and select international locations. FlightWorks boasts a fleet of nearly 25 aircraft ranging from turboprops to light jets, mid- and super-mid-sized jets to large cabin jets capable of carrying 14 passengers. FlightWorks holds an Aviation Research Group US (ARG/US) “Platinum” rating, a Wyvern-recommended status, and a Department of Defense CARB certification.
